

## Transportation Engineer

### Candidate Qualifications:

Are you tired of working in your corporate silo? Are you ready to join a nimble firm that will provide a wide array of opportunities and design experience that will broaden your skills to make you a better engineer for tomorrow? If so, Peralte-Clark, LLC is the firm for you! We are seeking a well-rounded, versatile, candidate to join us in a Transportation Engineering position. The successful candidate will work on all phases and aspects of transportation projects and will be utilized in various capacities, depending on the project. A candidate with roadway design experience for clients including IDOT, Illinois Tollway, as well as various counties and municipalities is desired. Experience with Class I freight and passenger railroads is a plus.

### Responsibilities and Duties:

- Roadway geometrics design
- Utility and drainage design
- Hydraulic modeling and analysis
- Maintenance of traffic design
- Traffic analysis and traffic signal design
- Public involvement coordination
- Phase I/II design tasks for IDOT, Illinois Tollway, County, Metra and Municipal clients
- Client interaction and professional networking
- Mentor and instruct junior technical staff
- Collaborate and assist senior level staff
- Playing an integral role in a rapidly growing consulting firm
- Assist in other non-engineering aspects of a growing business, as necessary

### Staff Testimonial

“The culture at Peralte-Clark emphasizes a supportive leadership style. My presence is valued, which inspires me to do great work – work that is meaningful and aligns with my core values.”

JENNIFER MORALES, PE  
PROJECT MANAGER

### Requirements:

- Bachelor's degree in civil engineering or closely related field
- Professional Engineer (PE) license
- Proficiency with MicroStation
- Proficiency in Microsoft Office programs (Word, Excel, PowerPoint, etc.)
- Minimum 5 years of roadway engineering experience with transportation related projects
- Must be able to collaborate and work remotely with colleagues
- Ability to work overtime hours when necessary to adhere to project demands and to be productive when working remotely
- Familiarity with Illinois Tollway and IDOT engineering design standards

### About Us:

Peralte-Clark is a forward-looking, rapidly growing firm that is on the leading edge of the industry. We are seeking our bright and experienced engineers with an entrepreneurial spirit with a singular focus on client satisfaction to help build our vision for the firm. Our office is located in downtown Arlington Heights, which is a fast 40-minute train ride from downtown Chicago's Ogilvie Station and a two minute walk from the Arlington Heights train station. We offer competitive pay, excellent benefits and a pleasant work environment.
